## Roundabout rules

Level 2  
October 2010

### Approach

- Slow down.

### Yield

- Yield to cars coming from the LEFT.
- Yield to pedestrians (walkers).

### Enter

- When it is safe, enter to your RIGHT.

### Exit

- Signal RIGHT when you plan to exit.

### Special rules

- If you miss your exit, go around again.
- When you hear a siren, exit the roundabout, and then pull over.

### Pedestrians

- Use the crosswalks.

### Cyclists

- Ride your bicycle through the roundabout like a car.
- You can also walk your bicycle at crosswalks.

## Why Roundabouts?

- Roundabouts are safer than traffic lights and four-way stops.
- At roundabouts, there are 40 percent fewer accidents and 80 percent fewer injuries because vehicles slow down.
- Roundabouts also cut down on noise and pollution.  
When vehicles stop and go, they make more noise and pollution.
