Bullying

Adapted from bullyingcanada.ca; thebullyproject.com; and *The Vancouver Sun*.

Bullying happens when a person or people hurt or scare another person, again and again.

Bullying is wrong.

Bullies want to make a person feel small and powerless.

Here are four examples of bullying:

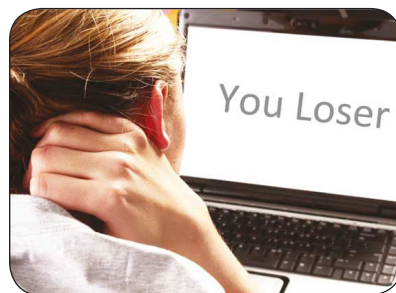

Verbal bullying such as gossiping and name-calling

Social bullying such as not letting someone join a group

Physical bullying such as hitting, and stealing or destroying a person's things

Cyber bullying such as text messaging or using the Internet to make fun of people or to spread stories about them
