
Be prepared for winter storms

Make a kit

Read the list of items that you should include in your emergency kit. Put a check (✓) beside the items you have in your house. Write down where you will keep your emergency kit.

- batteries
- flashlights and candles
- warm clothing
- non-perishable food
- water
- a first-aid kit

Where will you keep your emergency kit?

True or False

Write "T" if the answer is true. Write "F" if it is false.

1. _____	If the power goes out, you should keep your refrigerator door open.
2. _____	Children must stay away from fallen powerlines.
3. _____	Your emergency kit should have perishable food.

Be prepared for winter storms

4. _____	Your emergency kit should have flashlights and candles.
5. _____	You should have enough warm clothing and food to keep you safe for 72 hours.

Make a plan

If there is a winter storm and you lose power, you should have a plan with your family. Decide what you should do and who you should ask for help.

Make a plan by answering the questions below. Answer using full sentences.

1. Where will your family meet?

2. Who will find the emergency kit?

3. What will you do with the food in your refrigerator and freezer?

4. Who will you ask for help? Write down the name of one person you know and at least one company you need to call.
